

INDEX TO VOLUME 12

PREPARED BY L. S. RAMSDELL

Leading articles are in **bold face type**; notes, abstracts and cross references are in ordinary type. Only minerals described in more or less detail are indexed. Titles of abstracted articles are not repeated when cross indexed under the authors' names.

<p>Acmitic pyroxenes. (Washington, Merwin)..... 233</p> <p>Adkins, W. S. See Lonsdale, J. T. 256</p> <p>Aegirite, Libby, Mont. (Goranson) 37</p> <p>Ahfeld, F..... 381</p> <p>Alaskaite, note on occurrence of. (Brown)..... 21</p> <p>Alkali halides—symmetry of etch figures. (Hettich) [Review].. 324</p> <p>Alkali spinel. (von Eckermann) 232</p> <p>Alkalies, determination in rocks and minerals. (Shannon)... 411</p> <p>Alpine mineral deposits. (Campbell)..... 157</p> <p>Alternating deposition of pyrite, marcasite and melnikovite. (Tarr)..... 417</p> <p>Aminoff, G..... 381, 382</p> <p>Ammoniojarosite, a new mineral from Utah. (Shannon)..... 424</p> <p>Amstutz, A..... 95, 96</p> <p>Anderson, C. A. Voltaite, Ariz. 287</p> <p>Apatite crystals, Md. (Shannon) 408</p> <p>Aramayoite. (Spencer)..... 265</p> <p>Argentite and acanthite. (Schneiderhöhn)..... 209</p> <p>Arrojadite. (Guimarães)..... 355</p> <p>Artificial fluorite. (Stockbarger) 26</p> <p>Avogadrite. (Zambonini)..... 232</p> <p>Azurite, crystallography of. (Palache, Lewis)..... 99</p> <p>Barytocelestite, Galetta, Ont. (Bruce, Light)..... 396</p> <p>Bauer, L. H. and Berman, H. Löllingite, Franklin, N. J. 39</p> <p>—— See Palache, C..... 149, 373</p> <p>Bedford, N. Y., minerals of. (Brown)..... 354</p>	<p>Beiträge zur Kenntnis der Mangangerzlagertätte von Tschiaturi im Kaukasus. (W. de la Sauce) [Book review]..... 295</p> <p>Berman, H. Graftonite, new locality in N. H...... 170</p> <p>—— Optical properties of Zin-cite, Franklin, N. J...... 168</p> <p>—— See Bauer, L. H..... 39</p> <p>—— See Foshag, W. F..... 381</p> <p>—— See Palache, C..... 180</p> <p>Billings, M. P. Topaz and phenacite, Chatham, N. H...... 173</p> <p>Brown, S. C. Minerals from Bedford, N. Y..... 354</p> <p>Brown, W. H. Note on occurrence of alaskaite...... 21</p> <p>Brownmiller, L. T. Clear selenium for index media...... 43</p> <p>Bruce, E. L. and Light, M. Barytocelestite, Galetta, Ont. 399</p> <p>Buerger, M. J. Optical notes on contact minerals, Edenville, N. Y...... 374</p> <p>Burbank, W. S. Additional data on pumpellyite, occurrence in Haiti...... 421</p> <p>Buttgenbach, H..... 325, 326, 381</p> <p>Buttgenbachite. (Buttgenbach).. 381</p> <p>Cahnite, a new boro-arsenate of calcium. (Palache, Bauer)... 149</p> <p>Calcioancylite. (Fersman)..... 98</p> <p>Calcite, biaxial. (Gillson)..... 357</p> <p>Campbell, I. Alpine Mineral deposits...... 157</p> <p>Canfield, F. A. Memorial of. (Palache)..... 67</p> <p>Carrobi, G. See Zambonini, F..... 1, 379</p> <p>Casapalca, Peru, minerals of. (McKinstry)..... 33</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- Cergadinolite. (Schetelig, Spencer) 97
- Chlorophoenicite. (Foshag, Berman, Gage) 381
- Chromepidote. (Zambonini) 97
- Cinnabar, occurrence in Dutch Guiana. (Palache)** 188
- Clinton, H. G. See Foshag, W. F. 290
- Comuccite. (Doelter) 379
- Crawford, W. P. 380
- Crestmore mineral locality, California. (Eakle)** 319
- Crystal structure of Ag_2S . (Ramsdell) 25
- Crystallographic notes. (Palache, Berman)** 180
- Cupric chloride, correct mineralogical name. (Wherry) 263
- Dana, E. S. Dr. Gustav Tschermak 293
- Davidson, S. C. Hiddenite occurrence in N. Carolina** 305
- Dienerite. (Hackl) 96
- Doelter, C. 379
- Dolivo-Dobrovalsky, V. V. 382
- Doll, C. G. See Fisher, L. W.** 427
- Eakle, A. S. Crestmore, Cal. mineral locality** 319
- Eitel, W. Ueber die Synthese der Feldspatvertreter. [Book review] 231
- See Lorenz, R. 437
- Ellsworth, H. V. Ellsworthite crystals, Haliburton Co., Ont.** 48
- Hyblite, alpha and beta, alteration products of thorite. 368
- Lyndochite, new mineral of euxenite-polycrase group. 211
- New analysis of Maberly, Ont. euxenite. 365
- Uranothorite, Hybla, Ont. 368
- Ellsworthite crystals, Ont. (Ellsworth)** 48
- English, G. L. Scientific valuation of minerals.** 196
- Entwicklungsgeschichte der Mineralogischen Wissenschaften. (Groth) [Book review] 27
- Eschwegeite. (Guimarães) 356
- Euxenite, Maberly, Ont., new analysis. (Ellsworth)** 365
- Famous mineral localities, Crestmore, Riverside Co., California. (Eakle)** 319
- Fersman, A. E. 58, 96, 97, 98
- "Finger prints" of minerals. (Winchell) 261
- Fisher, L. W. and Doll, C. G. Mineral localities of Rhode Island, II.** 427
- Quartz from Iowa Canyon, Nevada 225
- Florence meteorite, Williamson Co., Texas. (Lonsdale)** 398
- Fluorborite. (Geiger) 266
- Fluorite, artificial 26
- Foshag, W. F. Selenite caves of Naica, Mexico.** 252
- and Clinton, H. G. **Pitticite in Nevada.** 290
- R. B. 381
- [Book review] 263
- Gage, R. B. See Foshag, W. F. 381
- Garnet group, X-ray study. (Stockwell)** 327
- Garnets in the Navajo country. (Reagan) 414
- Geiger, P. 266
- Geological hammers. (Walker) 226
- Geological hammers. (Hart) 354
- Gillson, J. L. Granite of Conway, N. H., and its druse minerals.** 307
- **Biaxial calcite.** 357
- Goldschmidt, V. M. The laws of Chemical Crystallography. [Book review] 28
- Goranson, R. W. Aegirite from Libby, Montana.** 37
- Gordon, S. G. Note on meta-vauxite, a new phosphate 264
- Graftonite, new locality in N. H. (Berman)** 170
- Granite of Conway, N. H. and its druse minerals. (Gillson)** 307

- Groth, P. Entwicklungsgeschichte der Mineralogischen Wissenschaften [Book review] 27
- Grünerites, relation of French and American to Swedish amphiboles. (Richarz)** 351
- Guide to collection of meteorites. (Prior) [Book review] 231
- Guimarães, D. 355, 356
- Hackl, O. 96
- Hallimond, A. F. Studies in mica group. (A discussion.) 413
- Hart, G. **Nomenclature of silica** 383
- Geological hammers 354
- Hedyphane, crystallographic notes. (Palache, Berman)** 180
- Hematite, crystallographic notes. (Palache, Berman)** 180
- Hengleinite = (Co-Ni-pyrite). (Doelter) 379
- Heterobrochantite. (Buttgenbach) 325
- Hettech, A. 324
- Hiddenite, N. Carolina. (Davidson)** 305
- Hoegtveitite 97
- Holdenite, new arsenate of Mn and Zn. (Palache, Shannon)** 144
- Hunt, W. F. [Book reviews] 230, 231, 438
- Hyblite, alpha and beta, alteration products of thorite. (Ellsworth)** 368
- Hydrocerussite (Aminoff) 382
- Ianthinite (Schoep) 355
- Jakob, J. 380
- Keeleyite, reexamination of. (Shannon, Short)** 405
- Kernite, a new sodium borate. (Schaller)** 24
- Kipushite (Buttgenbach) 326
- Korea-augite (Yamanari) 356
- Kostylena, E. E. 382
- Kraus, E. H. [Book reviews] . 27, 56, 263
- Künstlichen Edelsteine. (Michel) [Book review] 263
- Kurbatov, S. M. 96
- Kurbatkoff, I. 96
- Labuncov, A. 295
- Landon, R. E. Roemerite from Calif.** 279
- Larsen, E. S. 58
- La Sauce, W. de la. Beiträge zur Kenntnis der Manganeerzlagstätte von Tschiaturi im Kaukasus. [Book review] 295
- Laubmann, H. 232
