¹ The locations of meeting places for small groups will be posted at the Information Desk.

² Those interested in the possible formation of a Commission dealing with the problems of ore microscopy are invited to attend this meeting. Further information is available from your Representative or from Secretary Amorós.

³ Later meetings of the Commissions may be scheduled by their Chairmen for April 18–20. Since some countries may be represented by but one or two mineralogists, conflicts in meetings of the various Commissions should be avoided.
