SOUTHEAST SECTION OF THE GEOLOGICAL SOCIETY OF AMERICA MEETING, UNIVERSITY OF GEORGIA, ATHENS, GEORGIA, APRIL 13-16, 1966

The annual meeting of the Southeast Section of The Geological Society of America is scheduled to be held from April 13 through April 16 at the Center for Continuing Education, University of Georgia, Athens, Georgia.

Papers which reflect many of the phases of geological field and laboratory research that are being accomplished in the Southeastern United States have been invited for the program.

Three field trips are planned in conjunction with the meeting. T. S. Crawford, Department of Geology, University of Georgia, will lead a one-day, post-meeting trip to investigate "Dike Swarms, Metavolcanics, and Granites of East-Central Georgia." V. J. Henry, Marine Institute, University of Georgia, will conduct a two-day, pre-meeting trip on the "Marine Geology of the Georgia Coast." John Sandy, Department of Geology, University of Georgia, will lead a one-day, post-meeting trip to investigate the "Stratigraphy and Economic Geology of East-Central Georgia."

L. D. Ramspott is the Chairman of the Local Committee. R. E. Carver is Chairman of the Registration Committee. Anyone wishing additional information about the meeting should communicate with either Ramspott or Carver at the Department of Geology, University of Georgia, Athens, Georgia, 30601.

IMA MEETING

Prof. D. J. Fisher, Dept. of Geophysical Sciences, Univ. of Chicago, Chicago 37, Ill., announces that he has registration forms for the IMA Cambridge meeting available to the U. S. members of the MSA who can secure one by writing him.

Dr. Arman F. Frederickson has resigned his post as Chairman of the Department of Earth and Planetary Sciences to become Director of the Center for Oceanography at the University of Pittsburgh. Under his direction, a new oceanographic station is being constructed on the island of Virgin Gorda in the British Virgin Islands. The work is supported by a grant of \$396,000 from the Scaife Foundation. His vacated post of chairman will be filled temporarily for one year by Dr. Michael Fuller.

An error was made in abstracting the powder data for marokite, *Am. Mineral.* **49**, 817. The line at 2.87 was given twice; in its place as very strong should be 2.71, which was omitted.

Jewell Glass of the U. S. Geological Survey, died in Washington, D. C. on January 28, 1966, at the age of 77.
