

PROCEEDINGS OF THE FORTY-SIXTH ANNUAL  
MEETING OF THE MINERALOGICAL SOCIETY OF  
AMERICA AT KANSAS CITY, MISSOURI

GEORGE SWITZER, *Secretary*

The forty-sixth meeting of the Society was held on November 4-6, 1965 at the Hotel Muehlebach, Kansas City, Missouri. The scientific sessions were integrated with those of the Geological Society of America and other affiliated societies. A total of 41 scientific sessions were held. Of these two were devoted to mineralogy, five to petrology, one to organic geochemistry and three to inorganic geochemistry. In these sessions 114 papers were presented.

The annual luncheon of the Society on November 5 was attended by 125 members and guests. Following the luncheon the twenty-third presentation of the Roebling Medal was made to Adolf Pabst and the fifteenth presentation of the Mineralogical Society of America Award was made to Peter J. Wyllie.

On the morning of November 4 the Society was addressed by Retiring President George T. Faust on the subject, "The Hydrous Nickel-Magnesium Silicates." The annual business meeting was held on the morning of November 4, at which reports were given by the Secretary, Treasurer, and Editor of the American Mineralogist.

ACTION OF THE 1965 COUNCIL AT ITS NOVEMBER 3, 1965 MEETING

The second meeting of the 1965 Council was held on November 3, 1965. The principal actions taken by the Council are summarized below:

*Awards.* The Council voted that in 1966 the Roebling Medal be awarded to Max H. Hey and the Mineralogical Society of America Award to David B. Stewart.

*Society Funds in Savings and Loan Accounts.* The Council voted that Society funds in a savings and loan account must not exceed the maximum covered by Federal Deposit Insurance Corporation insurance.

*Withdrawal of W. T. Pecora as Councilor.* The Council voted to accept with regret the withdrawal of William T. Pecora as Councilor. Walter D. Keller was appointed to fill out his term (1965-1967).

*Mineralogical Abstracts.* This journal is published jointly by the Mineralogical Society of Great Britain (MSGB) and the Mineralogical Society of America. The Council of the MSGB has made a number of recommendations for changes and improvements in operational procedures. These recommendations include appointment of Dr. Robert A. Howie as editor beginning in September 1966, and appointment of five sub-editors and sub-indexers. After lengthy discussion it was agreed that the matters raised by the British society are of such fundamental importance as to require careful study, and that a meeting of the minds would be difficult to arrive at by correspondence. It was, therefore, voted that: Dr. Robert A. Howie and Dr. Leonard G. Berry be invited to come to the United States to look into recent technological developments in Automatic Data Processing systems, in order to consider enlarging the scope of the suggested changes in the management of *Mineralogical Abstracts*; to discuss the amount to be paid into the *Mineralogical Abstracts* account by both societies for members; and to discuss plans for getting new subscribers.

*Endowment Fund Committee.* A report on the activities of this committee was given by Marjorie Hooker. A letter has been composed to be sent to a selected group of industrial subscribers. This letter will ask for reaction to a contribution of \$200 a year for five years, the fund so created to be used to increase the size of the American Mineralogist.

*American Geological Institute.* The matter of the present practice of MSA stipulation of Fellows was discussed. It was voted that the society retain the status quo with regard to

stipulation of fellows until such time as AGI discontinues sending *Geotimes* to all members.

*The American Mineralogist*. It was voted that the Editor be authorized to seek professional editorial help as he sees fit to the extent of a maximum expenditure of \$5,000 per year.

*Summer Meeting 1966*. This meeting will be held May 6, 7 and 8 with the Lake Superior Institute.

*Summer Meeting 1967*. The date of this meeting, with the Mineralogical Association of Canada, has been changed to August 28–September 3, 1967.

*Amendment to the Constitution*. A petition signed by the required number of members and fellows was submitted proposing an amendment to the Constitution. The proposed amendment would replace the present Section 1, Article III, which now reads:

#### *Article III. Officers*

*Section 1*. The officers of the Society shall be a president, a vice-president, a treasurer and a secretary, who shall be elected annually. There shall be a council consisting of the above officers, the retiring president, and six fellows at large, two of the latter to be elected each year for terms of three years.

The proposed amendment reads:

The officers of the society shall be a president, a vice-president, a secretary, and a treasurer. These four officers, the retiring president, and six fellows at large shall constitute the council. The president and vice-president shall each be elected annually for a term of one year; no person shall serve more than one term in each office. The secretary and treasurer shall each be elected biennially, in alternate years, for a term of two years, except that the first election following the adoption of this amendment shall be for both officers, the secretary to serve a term of two years, and the treasurer, a term of one year. No person shall serve in either office more than two terms, whether consecutive or separated. A vacancy occurring in any office between annual election periods may be filled until the next regularly scheduled election and installation of officers by a past incumbent or other fellow appointed by a two-thirds vote of the Council. The six fellows at large for the Council shall be elected two each year for terms of three years. No elected fellow shall serve more than one term.

*Free Reprints*. The Council voted that henceforth authors of articles in the *American Mineralogist* be given 50 free reprints, regardless of the number purchased.

#### ACTION BY THE 1966 COUNCIL

The 1966 Council held its first meeting on November 5, 1965.

*Editor of The American Mineralogist*. The Council appointed E. Wm. Heinrich Editor for the year 1966.

*Associate Editors of The American Mineralogist*. The terms of Associated Editors Donald L. Graf and Alfred J. Frueh, Jr. expired at the end of 1965. The Council expressed its thanks to these gentlemen for their devoted service to the Society and voted to replace them for a three-year term beginning January 1, 1966 with Arthur F. Hagner and Vernon J. Hurst.

*Editor of The American Mineralogist for 1967*. E. Wm. Heinrich notified the Council that he wished 1966 to be his last year as Editor of the *American Mineralogist*. J. V. Smith asked that it be placed on record that the Editor had carried out his duties in a very satisfactory manner and that the journal is now internationally recognized as being of high caliber.

*50th Anniversary Celebration*. The society will be 50 years old in 1969, and in commemoration of this event the Council voted to hold a two day meeting, possibly at a

nearby university, preceding the 1969 annual meeting with the Geological Society of America in Atlantic City.

*Program Policy Committee.* It was voted that a Program Policy Committee be established. This committee shall annually examine the programs of the Society, shall entertain and appraise proposals of new programs, and shall consider activities, such as symposia, special lectures, special meetings, and institutes, by which the Society may most effectively contribute to the advancement of the science of mineralogy. The Committee shall make formal recommendations on programs to the incoming Council at each annual meeting of the Society. The Committee shall consist of the immediate Past-President, *Chairman*, Vice-President, and three members at large, appointed for three years, one new member appointed each year.

*Committee Appointments.* President Mason made the following committee appointments, which were approved by the Council.

#### 1966 COMMITTEES OF THE MINERALOGICAL SOCIETY OF AMERICA

##### *Nominating Committee for Fellows*

W. D. Keller, Chairman  
C. Burri, 1964-1966  
J. J. W. Rogers, 1964-1966  
L. B. Sand, 1965-1967  
L. G. Berry, 1965-1967

C. L. Christ  
J. B. Thompson  
N. Morimoto

##### *Finance Committee*

E. P. Henderson, Chairman, 1965-1967  
A. Montgomery, 1965-1967  
T. W. Stern, 1964-1966  
Marjorie Hooker, *ex officio*

##### *Nominating Committee for Officers*

Joan R. Clarke, Chairman  
R. V. Dietrich  
H. W. Jaffe  
R. C. Erd  
L. Moyd  
P. J. Wyllie

##### *MSA Representative on GSA Program Committee*

L. H. Larsen

##### *Auditing Committee*

Chas. W. Burnham, Chairman  
P. E. Desautels  
E. F. Osborn

##### *Roebling Medal Committee*

Felix Chayes, Chairman  
R. A. Howie  
K. Yagi  
E. H. Nickel  
S. S. Goldich

##### *Mineralogical Abstracts*

L. G. Berry, Chairman

##### *Nomenclature Committee*

G. T. Faust, Chairman  
J. A. Mandarino  
S. A. Forman  
H. Winchell  
W. Eitel  
J. J. Papike

##### *Archivist*

George Phair

##### *Program Policy Committee*

G. F. Faust, Chairman  
F. Chayes  
O. F. Tuttle, 1966  
D. B. Stewart, 1966-1967  
T. Zoltai, 1966-1968

##### *MSA Award Committee*

J. V. Smith, Chairman  
W. A. Deer  
A. J. Frueh

##### *50th Anniversary Celebration Committee*

G. T. Faust, Chairman

## REPRESENTATIVES

<i>American Geological Institute</i>	<i>International Mineralogical Association</i>
Representative Ian Campbell, 1966–1968	Representative D. J. Fisher
Translations Committee M. Fleischer	Members of Commissions Abstracts—W. T. Holser Data—G. T. Faust New Minerals and Mineral Names— A. A. Levinson Museums—G. Switzer Teaching—H. E. Wenden Ore Microscopy—E. N. Cameron Cosmic Mineralogy—B. Mason
<i>National Research Council</i>	
R. M. Garrells, 1965–1968	
J. J. Fahey (Advisory Board to Office of Critical Tables)	

*Nominations for Officers for 1966.* The following slate was proposed by the Nominating Committee and approved by the Council, except for the Office of Secretary. The Committee nominated the present incumbent, who asked that his name be withdrawn. The nominees given below were selected by the council:

*President:* Felix Chayes  
*Vice President:* Charles A. Anderson  
*Secretary:* Ralph J. Holmes  
*Treasurer:* Marjorie Hooker  
*Councilors:* Robert G. Coleman  
 James W. Earley  
 Donald L. Graf  
 Robert J. Trail

## REPORT OF THE SECRETARY FOR 1965

*To the Council of the Mineralogical Society of America*

## ELECTION OF OFFICERS AND FELLOWS

The ballots were counted on October 21, 1965 by a Teller's Committee composed of Daniel Appleman, Robert Meyrowitz, and the Secretary. Nine hundred and sixty-one ballots were cast in the election of officers and 235 in the election of fellows. The officers elected to serve in 1966 are:

*President:* Brian Mason  
*Vice President:* Felix Chayes  
*Secretary:* George Switzer  
*Treasurer:* Marjorie Hooker  
*Councilors:* Eugene N. Cameron  
 William S. Mackenzie

According to the provisions of the Constitution, the following have been elected to Fellowship:

Philip M. Bethke	Ernest G. Ehlers
Michael G. Bown	Knut S. Heier
John F. Burst	Joseph A. Mandarino
Roy S. Clarke, Jr.	Richard S. Mitchell
Hubert Curien	Eugene H. Roseboom

Elmer B. Rowley  
 Robert S. Roth  
 Leon Silver

Harry W. Smedes  
 Priestly Toulmin  
 Tibor Z. Zoltai

The suggested changes in the By-Laws, Article IV, Section 2, passed by a vote of 191 for and 19 against. The result is to add to the By-Laws, Article IV, Section 2, the following:

Section 2. (a) Nominations for fellowship will be reviewed by a Fellowship nominating committee of five, one of whom is a member of the Council. It will become the duty of the Fellowship nominating committee to document its reasons for recommending that a nominee be deferred and this information will be available to the Council at the meeting at which the nominee is considered. Each nominee who has received a defer vote will be considered individually by the Council.

Present Section 2 remains unchanged and becomes Section 2 (b).

The society held its second summer meeting with the American Crystallographic Association in Gatlinburg, Tennessee, June 27-July 2, 1965. There were two days of scientific sessions at which 41 papers were given, and two days of field trips. The papers and field trips were excellent, and the meeting very well organized primarily because of the efforts of Dr. Otto Kopp MSA representative on the local committee. Unfortunately, the attendance by MSA members was very poor.

Professor William R. Brown was the society's representative at the Centennial Celebration of the founding of the University of Kentucky on February 22, 1965. Your Secretary represented the society at the Smithsonian Institution's Bicentennial Celebration of the Birth of James Smithson on September 16, 1965.

MEMBERSHIP STATISTICS

Membership in the society in 1965 is shown in the following table. Figures for the preceding two years are given for comparison:

	November 1, 1965		
	1963	1964	1965
Honorary Fellows . . . . .	4	3	3
Fellows . . . . .	482	488	478
Members . . . . .	1,670	1,776	1,880
	<hr/>	<hr/>	<hr/>
	2,156	2,267	2,361

During 1965 the society lost through death ten fellows:

- Penti Eskola
- John Fairchild
- R. P. D. Graham
- O. R. Grawe
- J. E. Hawley
- Arthur Holmes
- Charles D. Jeffries
- William J. Miller
- Tomas Tryggvason
- L. R. Wager

Respectfully submitted,  
 GEORGE SWITZER, *Secretary*

## REPORT OF THE TREASURER FOR 1965

(Year ending July 31, 1965)

*To the Council of the Mineralogical Society of America:*

## SUMMARY STATEMENT

Operating cash, August 1, 1964.....	\$ 6,739.34	
Receipts, August 1, 1964-July 31, 1965.....	70,885.88	\$ 77,625.22

#### CASH CONTINGENCY FUND

<i>Account</i>	<i>Amount</i>
National Permanent Savings & Loan Association	\$15,778.58
Columbia Federal Savings & Loan Association	14,220.77
Riggs National Bank	551.85
	<u>\$30,551.20</u>

#### *Income and Expense*

Although the state of the Society's finances is satisfactory and the value of our investments has increased, the margin between income and expense has dropped by a considerable amount. Part of this is due to non-recurrent expense that fell within the fiscal year. Another part, however, is not entirely shown by the figures as will be explained in the discussion.

The gain in total income over last year is slight, about \$400.00. Increases in dues and subscription payments and in advertising revenue were offset by the closing out of the Penrose grant from the Geological Society of America and smaller income from the sale of publications. The number of library subscriptions to *The American Mineralogist* increased to 1,691 copies from last year's figure of 1,596. Of these, 659 are delivered within the United States and 1,032 are sent abroad to 84 countries on all continents.

Expense for 1964-65, as shown on the books, has risen by \$4,000 over the previous year. However, if the payment for the normal six issues of *The American Mineralogist* rather than five had fallen within the fiscal year, the increase would have been \$10,000. Three items are chiefly responsible. One is the planned increase in the number of pages in the journal for which a sum of \$45,000 was budgeted. For the coming year, beginning September 1965, we are also faced with a 7½% increase in printing cost, the result of wage and material increases in the printing industry. This means that the printing of *The American Mineralogist* at its present size of 1,800 pages will cost about \$48,000 annually for the next few years. The current income from dues and subscriptions of approximately \$40,700 thus will fail to cover the printing cost by a considerable amount, and if we add the Editor's expenses and honorarium, by an even larger sum. It is a matter of prime concern, therefore, to consider how the cost of maintaining the journal at its present standard is to be met.

The second item is meeting expense. With the revision a few years ago of the method of distributing the Program and Abstracts of the annual meeting, a considerable saving on that item was effected. Now, with the increased cost of the Program and institution of charges for the meeting announcements, this item has again risen. The cost this year was \$750 compared with \$330 last year. A larger item has been the expense for the summer meetings held in 1964 and 1965. The cost of the 1964 meeting, including officers' travel and the publication of the program and the abstracts in the journal, amounted to \$2,060. Final figures are not yet available for the 1965 meeting but the amount expended for announcements, program, abstracts, and field trip guidebook is approximately \$1,400.

The third item is the capital contribution of \$2,800 toward the support of *Mineralogical Abstracts*. While such an item is not an annual recurrent expense, it is not at all clear that the Abstracts are as yet self-supporting and it is fairly evident that future contributions will be necessary.

TABLE 1. INCOME

Income Source	1963-1964		1964-1965

*Endowment Fund and Cash Contingency Fund.* The book value of the Endowment Fund securities on August 1, 1965 was \$147,603.15 compared with \$142,152.60 on August 1, 1964. Of this amount, 6.8% is in bonds, 16.6% in preferred stock, and 76.6% in common stock. The market value, as of August 1, 1965, was \$227,583.00. Dividends and interest from the securities totaled \$8,019.98, well above the estimated figure of \$7,750 and the result of dividend increases in several holdings. From current holdings an income of \$8,150.00 is esti-

mated for 1965-1966. The percentage yields of each type of security, at both book and market values, are given in Table 3.

TABLE 3. SECURITIES

Class	Book Value	Yield	Market Value	Yield
Bonds . . . . .	\$ 10,043.75	4.98%	\$ 9,625.00	5.19%

Common Stock . . . . .	112,990.00	5.56	191,020.00	3.29
	<u>\$147,603.15</u>	<u>5.43</u>	<u>\$227,583.00</u>	<u>3.52</u>

*Acknowledgments.* The continuity of operation of the Treasurer's office depends on several individuals to whom I extend my sincere thanks, specifically, Robert Weishaupt and Walter Weishaupt, for assistance with back issue shipments; Rita Ehrmann, for her capable direction of the advertising in *The American Mineralogist*; Edward P. Henderson, Arthur Montgomery, and William T. Pecora, of the Financial Advisory Committee, for their judicious management of our investments; Herbert Allen of Merrill Lynch, custodian of our portfolio; Jos. Dinsmore Murphy, of Steadman, Leonard, Clammer and Flues, for legal guidance; Irwin H. Wensink and Jane Gibson, of the George Banta Company Washington office; Alvin A. Lang and Gerald J. Schutkoske, of the George Banta Company in Menasha, Wisconsin, printers of the Society publications. My personal thanks also go to our members, subscribers, and business associates, all of whom have contributed toward a successful year.

Respectfully submitted,  
 MARJORIE HOOKER, *Treasurer*

REPORT OF THE AUDITING COMMITTEE

October 28, 1965

*To the President of the Mineralogical Society of America:*

On October 27, 1965, the Auditing Committee examined the accounts of the Treasurer of the Society and found them in excellent order for the fiscal year August 1, 1964 to July 31, 1965.

The Committee wishes to make two recommendations to the Council. First, since the funds currently on deposit in two savings and loan associations exceed by a sizable margin the amount covered by the Federal deposit insurance for such accounts, the Committee recommends that the Council accept the Treasurer's request to open a third such account.

Second, the Committee suggests that, in keeping with good business practice, the accounts in the Cash Contingency Fund require signatures of two of the four members of the Finance Committee for withdrawal of funds and that funds in the brokerage account, when transferred to the Society, should be paid directly into the Cash Contingency Fund by the brokerage firm.

The Treasurer continues to merit the appreciation of the Society for her devotion to its business affairs.

Respectfully submitted,  
 P. R. BRETT  
 CHARLES W. BURNHAM  
 JOAN R. CLARK, *Chairman*

## REPORT OF THE EDITOR FOR 1965

## PUBLICATION RESULTS

During 1965 *The American Mineralogist* contained a total of 2,150 pages, the most productive year of its history, and one which I believe, saw an additional increase in the quality of its presentations as well.

Most of this increase stems from the fact that *The American Mineralogist* appeared in 7, rather than in 6 numbers, the September–October number (No. 9–10) being split into a regular number (September, No. 9) and a special number (October, No. 10) dedicated to Professor Paul F. Kerr.

	1964	1965
Regular 6 numbers. . . . .	1802 pp.	1854 pp.
Kerr number. . . . .	—	296
	<hr/>	<hr/>
	1802 pp.	2150 pp.

The 1965 volume includes 117 major papers and 78 notes.

The following new minerals were described:

coalingite  
 esperite (formerly calcium-larsenite)  
 fresnoite  
 getchellite  
 hallimondite  
 hollingworthite  
 kitkaite  
 krauskopfite  
 macallisterite  
 macdonaldite  
 mawsonite  
 mckelveyite  
 moctezumite  
 muirite  
 nickeliferous magnesium hydroxide (not named)  
 pabstite  
 traskite  
 verplanckite  
 walstromite

## MANUSCRIPT RECEIPTS

During 1965 the total *number* of manuscripts decreased, but the volume increased, owing to a much larger number of major articles and a decrease in “Notes”-type articles.

	Major	Notes	Total
1964. . . . .	152	92	244
1965. . . . .	170	69	239

MANUSCRIPT BACKLOG

For 1966 there were available:

	<i>Major MS</i>	<i>Notes MS</i>	<i>Total</i>
Accepted.....	46	14	60
In process of revision or review.....	47	14	61
Total.....	93	28	121

MANUSCRIPT EVALUATION

The rejection rate of manuscripts has increased appreciably:

	<i>Major</i>	<i>Notes</i>
1964.....	12	14
1965.....	23	32

This marked increase stems from two factors:

1. Council instructions of November, 1964 which have permitted the Editor greater discretion in rejecting
  - (a) Manuscripts dealing with minor mineral occurrences of purely local interest.
  - (b) Manuscripts dealing with chiefly "chemical" themes, *e.g.*, phases for which no mineralogical counterparts exist or analytical techniques.
2. Increased quality standards by the Associate Editors, other critics and the Editor.

PUBLICATION INTERVAL

The time period between the date "accepted for publication" and the publication month ranged from 2-9 months. One paper, whose "publication interval" is indicated as 14 months, was held up by request. The average "publication interval" for the first 4 numbers of Vol. 50 (1965) for major articles (62) was 5 months. The period between "receipt of manuscript" and publication date is, of course, longer but is not significant inasmuch as the authors' revision time is often lengthy.

PRINTING DELAY

Beginning with the middle of the year, delays in Banta's printing schedule were encountered owing to the complete overhaul of their printing system. Thus the May-June number was 2 months late and the July-August was 1+ month late. The September number was about a month and a half late; the November-December number appeared in late January (about one month late). It is expected that during 1966 the numbers will again appear at their regularly scheduled times. There was nothing that could be done to prevent this, and Banta has been both apologetic and also grateful for our understanding. We attempted to let the membership know about the delay via a postcard dated late in June; unfortunately, because of the same problem, it was not printed and distributed till late July. In this hair-pulling interval I was tempted to prepare a second postcard to the membership telling them that a postcard explaining the **Journal's** delay had itself been delayed!

KERR NUMBER

The Kerr number (October, 1965) was our first *Festschrift* number in 10 years and proved eminently satisfactory and successful, largely owing to prodigious labors by Ralph J. Holmes and William J. Croft. All scientific manuscripts included in this number received

the same critical and editorial reviews accorded manuscripts accepted for regular numbers of *The American Mineralogist*.

## CRITICS

Again, as always, *The American Mineralogist* would be unable to continue save for the unselfish efforts of the Associate Editors and the special critics. My special thanks go to them all:

*Associate Editors:* Donald L. Graf, Alfred J. Frueh, Jr., Ivan H. Milne, William T. Holser, Daniel E. Appleman, Stephen E. Clabaugh.

*Critics:*

Hans H. Adler	A. A. Giardini	Richard S. Mitchell
L. L. Ames, Jr.	Joseph Goldstein	Mary Mrose
Fred Barker	Ralph E. Grim	Adolf Pabst
Julian D. Barksdale	Eugene B. Gross	Donald R. Peacor
Thomas F. Bates	Richard L. Hay	Carl Roach
F. D. Bloss	Harry H. Hess	Abraham Rosenzweig
Francis R. Boyd, Jr.	Anna Hietanen-Makela	Charles A. Salotti
W. F. Bradley	C. S. Hurlbut, Jr.	J. F. Schairer
Irving A. Breger	M. L. Jackson	Frank Senftle
Louis I. Briggs	Walter D. Keller	Dale R. Simpson
Gordon Burley	William C. Kelly	Brian Skinner
Felix Chayes	George T. Kerr	Joseph V. Smith
Paul L. Cloke	J. A. Kohn	Hugo Steinfink
A. J. Cohen	James R. Kramer	T. W. Stern
D. S. Coombs	Leonard H. Larsen	David B. Stewart
Reynolds M. Denning	A. A. Levinson	Hugo Strunz
J. D. H. Donnay	W. C. Luth	Francis J. Turner
James W. Early	R. J. P. Lyon	O. F. Tuttle
R. C. Emmons	John B. Lyons	Joseph A. Vance
Hans P. Eugster	W. S. Mackenzie	Charles E. Weaver
Michael Fleischer	Joseph A. Mandarino	Horace Hinchell
Clifford Frondel	Brian H. Mason	David R. Wones
Judith Frondel		Tibor Zoltai

I am also particularly grateful to Michael Fleischer for his unflagging efforts in accumulating information for "New Mineral Names" and for his services in having reviewed descriptions of new minerals by the Commission on New Minerals and Mineral Names of the I.M.A. Mrs. Rita Ehrmann receives my special thanks for her continued able assumption of the chores of our advertising program.

## TERMINATION OF EDITORSHIP

By December, 1966 I will have served the Society as Editor for six years, including one year as co-editor with L. S. Ramsdell. This is long enough, both from my own viewpoint and from that of our Society, whose affairs will continue to flourish as a direct function of the number of our members and fellows who are actively participating in them. Accordingly in November, 1965 I asked the Council of the Mineralogical Society of America not to consider me for reappointment after 1966.

Respectfully submitted,  
E. WM. HEINRICH, *Editor*

LIST OF FORMER OFFICERS AND MEETING PLACES

By recommendation of the Council, a complete list of past officers is printed in the proceedings of the annual meeting of the Society:

HONORARY PRESIDENTS

Edward S. Dana 1925-1935  
 Charles Palache 1949-1954  
 Edward H. Kraus 1955-

PRESIDENTS

1920 Edward H. Kraus  
 1921 Charles Palache  
 1922 Thomas L. Walker

## 1965 ANNUAL MEETING AT KANSAS CITY, MISSOURI

The meetings of the following societies were held November 4-6, 1965

- The Geological Society of America—78th
- The Paleontological Society—57th
- The Mineralogical Society of America—46th
- Society of Economic Geologist—46th
- The Geochemical Society—10th
