BRAGG SYMPOSIUM 1970: X-RAY ANALYSIS—PAST, PRESENT, AND FUTURE

In celebration of Sir Lawrence Bragg's eightieth birthday on March 31, 1970, a symposium is being arranged, sponsored by the Royal Society's British National Committee for Crystallography, the X-ray Analysis Group of The Institute of Physics and the Physical Society, and the International Union of Crystallography.

There will be invited and contributed papers on aspects of X-ray analysis to which Sir Lawrence Bragg has made particularly important contributions—methods of analysis, minerals, metals, and big molecules. The meeting will be held at the Royal Institution, London, April 1–3, 1970. Advanced registration will be necessary.

Further details may be obtained from: The Meetings Officer, The Institute of Physics and the Physical Society, 47 Belgrave Square, London, S. W. 1.

SOCIETY FOR APPLIED SPECTROSCOPY

The XXI Mid-America Symposium on Spectroscopy is announced for **June 2–5, 1970**, at the Sheraton-Chicago Hotel, Chicago, Ill. Original papers are being solicited in all areas of theoretical and applied spectroscopy and chromatography. Titles and brief abstracts, not to exceed 150 words, should be sent to Miss Adele Rozek, Program Chairman, Velsicol Chemical Corporation, 330 East Grand Avenue, Chicago, Illinois 60611. Deadlines are January 15 and February 1, 1970, respectively.

NEW JOURNAL

Beginning in Winter, 1969, Plenum Press of New York, in association with the International Association for Mathematical Geology, will publish the *Journal of the International Association for Mathematical Geology*.

Devoted to articles on quantitative geology, the journal furthers the association's aims of promoting international cooperation and exchange of ideas on the application and use of mathematics in geological research and technology, and encouragement of independent investigations.

The editorial board, headed by Dr. Daniel F. Merriam, University of Kansas, includes geologists and statisticians.

Subscription rates are \$14.00 for Volume 1 (1969—two issues) and \$28.00 for Volume 2 (1970—four issues).

INTERNATIONAL MINERALOGICAL ASSOCIATION-INTERNATIONAL ASSOCIATION ON THE GENESIS OF ORE DEPOSITS

The Second Circular for these important meetings, to be held **August 28–September 2, 1970**, in Tokyo and Kyoto, Japan, is now available from Professor R. Sunagawa, Secretary, Organizing Committee, IMA-IAGOD Meetings '70, Geological Survey of Japan, 8 Kawadacho, Shinjuku-ku, Tokyo 162, Japan. Registration must be completed by March 31, 1970. Authors should have their abstracts in final form on sheets provided by the Committee, in Tokyo by 31 March, 1970. Copies of full text for publication in the Proceedings are due by May 31, 1970. The final program and time table for the meetings will be issued in June, 1970.

Group flights are being organized. For information contact: for North America Dr. Marjorie Hooker, U. S. Geological Survey, Washington, D. C. 20242, USA; for Europe Dr. A. P. Sandrea, Laboratoire Géologie Appliquée, 119 Rue St. Jacques, 75 Paris 5e, France.

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION
(Act of October, 23, 1962; Section 4369, Title 39, United States Code)

1. Title of publication: THE AMERICAN MINERALOGIST.
2. Frequency of publication: Bi-monthly.
3. Location of known office of publication, headquarters and general business office: Mineralogical Society of America, 2201 M Street, N. W., Washington, D. C. 20037
4. Name and address of publisher and owner: Mineralogical Society of America, 2201 M Street, N. W., Washington, D. C. 20037.
5. Name and address of editor: William T. Holser, Chevron Research Co., Box 446, La Habra, California 90631.
6. Bondholders, mortgagees, and other security holders: none.
7. The following circulation figures are provided for (a) the average number of copies of each issue during the preceding 12 months and (b) the single issue nearest to the filing date:

Total number copies printed	(a) 5,400	(b) 5,400
Sales through dealers, carriers, etc.	(a) none	(b) none
Mail subscriptions	(a) 4,700	(b) 4,700
Total paid circulation	(a) 4,700	(b) 4,700
Free distribution	(a) 30	(b) 30
Total distribution	(a) 4,730	(b) 4,730
Office use, left-over copies,	(a)	
inventory balance, etc.	(a) 670	(b) 670
 Total	 (a) 5,400	 (b) 5,400

I certify that the statements made by me above are correct and complete.

ALVIN VAN VALKENBURG, *Treasurer*
September 30, 1969
