

Proceedings of the Fifty-Sixth Annual Meeting of the Mineralogical Society of America in Salt Lake City, Utah

LARRY W. FINGER, SECRETARY

The fifty-sixth annual meeting of the Society was held on October 20-22, 1975, at the Salt Palace and the Salt Lake Hilton in Salt Lake City, Utah. There were three technical sessions in mineralogy, four in petrology, and a symposium, "Minerals and Rocks Under High Pressure," arranged by Subrata Ghose. The sessions were integrated with those of the Geological Society of America and its other affiliated societies.

The retiring President, Arnulf Muan, addressed the Society on the morning of October 21st on the subject "Mineral equilibria in an interdisciplinary perspective."¹ The annual luncheon of the Society was held in the Seasons North Room of the Salt Lake Hilton on October 21st. Roebling Medals were awarded to Michael Fleischer, who was introduced by F. Earl Ingerson, and to O. Frank Tuttle, who was introduced by Elburt F. Osborn. Unfortunately, Professor Tuttle's health did not permit him to be present at the luncheon. The Mineralogical Society of America Award was given to Roger G. Burns, who was introduced by William S. Fyfe.

The annual business meeting of the Society was held on the morning of October 21st in the Salt Palace. Reports were presented by the Secretary, the Treasurer, and the Editor of *The American Mineralogist*. The results of the election and the subject of the next Short Course were announced.

Prior to the meeting, a Short Course on Feldspar Mineralogy, organized by Paul H. Ribbe, was held at the Hotel Utah in Salt Lake City, October 17-19, with 95 people in attendance. The lecturers were Paul H. Ribbe, Joseph V. Smith, David B. Stewart, and Richard A. Yund. The lecture notes were incorporated into a paperbound volume, *Feldspar Mineralogy*, which was on sale at the Society's booth in the exhibit area. This volume and the previous year's volume on *Sulfide Mineralogy* are available from the Business Office at \$5.00 each.

Council actions

The second meeting of the 1975 Council was held on April 12, 1975, at the Business Office. The third

meeting was held on October 19 at the Tri-Arc Travelodge in Salt Lake City, Utah. The principal actions taken by the Council at these two meetings are summarized here.

Awards

The Council voted to award the Roebling Medal for 1976 to Carl W. Correns. The Mineralogical Society of America Award for 1976 will be given to Friedrich A. Seifert.

Nominations of officers for 1977

The following slate of elective officers for 1977, based on recommendations from the Nominating Committee for Officers (Gordon E. Brown, Chairman) was chosen by the Council and will appear on the ballot in September, 1976.

President—F. Donald Bloss, Virginia Polytechnic Institute and State University

Vice-President—P. J. Wyllie, University of Chicago

Secretary—Not on the 1977 ballot

Treasurer—Malcolm Ross, U. S. Geological Survey
Councilors (1977-79)—Two of the four to be elected:

Arden Albee, California Institute of Technology
Subrata Ghose, University of Washington

Gerald V. Gibbs, Virginia Polytechnic Institute and State University

Paul B. Moore, University of Chicago

Fellowship

The Council elected 12 members to Fellowship, based on the recommendations of the Nominating Committee for Fellows (Robert Newnham, Chairman). The new fellows are:

Theodore Bunch

John C. Butler

Robert T. Dodd, Jr.

Liberto de Pablo Galan

John M. Guilbert

Donald C. Harris

L. J. Patrick Muffler

Norman J. Page

Michael Seal

Thomas P. Thayer

Slade Saint-John Warne

Richard J. Williams

¹ See this issue, pages 355-365.

Agreement with MSGBI

The Council discussed the draft of the agreement with the Mineralogical Society of Great Britain and Ireland regarding the joint ownership of *Mineralogical Abstracts*. The Council discussed various possible revisions to this document and requested the incoming President, E-an Zen, to continue negotiations with MSGBI.

Waldbaum Conference

The Council passed the following: "Resolved: That the Council of the Mineralogical Society of America expresses the great appreciation of the Society to James B. Thompson, Jr. and Alan B. Thompson for their outstanding organization and scientific direction of the excellent and successful Gordon Research Conference on Thermodynamics in Petrology dedicated to the late David R. Waldbaum and honoring Clark C. Stephenson."

Short Course

The Council voted to endorse the proposal for a Short Course on Opaque, Rock-forming Oxide Minerals to be held at the Denver meeting, with Douglas Rumble III as the Short Course Convenor for 1976.

Actions of the 1976 Council

The first meeting of the 1976 Council was held on October 22, 1975, at the Salt Lake Hilton, Salt Lake City, Utah.

The Council unanimously appointed Brian Mason as Editor and Miss Ann Garlington as Managing Editor of *The American Mineralogist*.

Committees

The report of the Committee on Committees (E-an Zen, Chairman) was presented to the Council. After discussion and suggested changes, the list of appointments was approved.

Spring meeting of the Council

The 1976 Council will hold its second meeting at the Sheraton Park Hotel on April 11, 1976.

Report of the Secretary for 1975*Results of the election*

The ballots were again counted by computer. Those elected were as follows:

President—E-an Zen (1976)

Vice-President—F. D. Bloss (1976)

Secretary—Larry W. Finger (1976–77)

Councilors—Ian D. MacGregor (1976–78)

Charles T. Prewitt (1976–78)

Membership statistics

As of September 1, 1975, there were 2,384 members, divided as follows: Members, 1,396; Student Members, 413; Fellows, 566; and Honorary Fellows, 9.

Necrology

The Society lost its former President and Roebbling Medalist, Clarence Samuel Ross. Others who have died since the last report are listed below:

Walter C. Allen

George Baker

Wilbur S. Burbank

Frank Cuttitta

R. D. DeRudder

Philip C. Foster

Marcel Gysin

John B. Hanley

Walter F. Hunt

J. Harlan Johnson

C. W. Lamont

Davis M. Lapham

William Lodding

Robert L. Parker

Lewis S. Ramsdell

Charles I. Rich

Karl Schwartzwalder

Clinton E. Trimble

Gilbert A. Wehr

Honorary President

A special scroll was prepared for Edgar T. Wherry to commemorate his appointment as Honorary President. The scroll was presented to him personally by the President on June 26, 1975. The text of the scroll was as follows: *The Mineralogical Society of America honors its Founder and Life Fellow, Edgar Theodore Wherry, by appointment for life as Honorary President from 1975 in grateful recognition of his numerous distinguished contributions to the mineralogical sciences (signed by the President and the Secretary).* A basket of fruit was sent to Professor Wherry for his 90th birthday September, 10, 1975.

Directory

A 1975 Directory of the membership, listed both alphabetically and geographically, was prepared from the computer-maintained roster under the supervision of Patricia Streb. The proof was checked insofar as possible by myself and (above and beyond the call of duty) E-an Zen, and the Directory was distributed to all members with Newsletter No. 5 in June, 1975. I thank the members who then took the time to notify us of errors they discovered; this help is invaluable and is greatly appreciated.

Meeting announcements

For the first time in the past four years, two mailings about the annual meeting went to our members. Included with Newsletter No. 5 to all members were preliminary announcements of both the Salt Lake City and the Tucson meetings. A second special mailing, to U.S.A. and Canadian members only, contained the Geological Society of America pre-registration brochure plus a complete schedule of MSA events and titles for all MSA technical sessions, a pre-registration form for the Short Course on Feldspars, and a pre-registration form for the Tucson meeting. Hopefully this service for our members, made possible by the cooperation of the Geological Society of America in supplying negatives of its announcements, of our Representative to the GSA Joint Technical Program Committee, Daniel S. Barker, of our Short Course Organizer, Paul H. Ribbe, and of our Representative to Friends of Mineralogy, Paul B. Moore, can be continued in future years.

Farewell

During my two terms as Secretary, it has been a privilege and a pleasure to work with so many wonderful people on behalf of the mineralogical sciences. Many have generously helped with problems and daily chores, far too many for me to acknowledge each one individually. However, I do want to mention these members of the Business Office staff who have been a strong right arm for the Secretary: Cynthia Beadling, Ellen Czerwenka, and Patricia Streb. My sincere thanks go to them as well as each and every one of all the others.

Report of the Treasurer for 1975

This report covers the period January 1, 1975, through December 31, 1975, denoted FY 1975. During this period, accounting was done on the accrual basis, and the figures presented are therefore comparable with those for FY 1973 and FY 1974. They are not directly comparable with those for preceding years, when accounting was on a modified cash basis. The figures have been audited by Touche, Ross and Company, and, in their opinion, present a fair picture of the Society's financial position. A copy of the full audit report is on file at the Society's business office, at 1909 K Street, NW, Washington, D.C., 20006, and is available for inspection by any member who wishes to do so.

The financial data for the period covered are pre-

sented in Tables 1 (Combined Balance Sheet) and 2 (Statement of Income and Expense, FY 1975). Both tables are basically similar to those presented last year. The only substantive change in the Balance Sheet reflects transfer of our investment portfolio from Ruane, Cuniff and Stires to Stires and Company, Inc. The format of the Statement of Income and Expense is also basically similar to that of last year's report. Once again, the Society experienced a net gain on its operations. It should be noted, however, that the gain was due entirely to the extraordinarily strong performance of the Society's investment portfolio. Without this additional income, the Society would probably have incurred a small deficit. This income is, of course, extremely vulnerable to fluctuations in general economic conditions, and we cannot assume that income in this amount will continue to be available; accordingly, the M.S.A. Council has begun to consider options available to us if financial conditions should worsen.

I am particularly gratified to report the increase in activity of the Revolving Fund, due largely to the Society's program of Short Courses, and sales of Short Course Notes. This program is clearly financially sound, as well as scientifically valuable.

At present, the Society's financial condition appears sound, and we appear to be in a good position to weather whatever financial difficulties the next years may offer.

a) Expenses are divided into two categories: Direct Costs and Indirect Costs. Direct Costs are those incurred in direct support of a particular project and only in support of that project. Indirect Costs are those incurred in support of the various projects of the Society. Indirect Costs are allocated to the various projects on a basis proportional to their direct costs.

b) Dues and Contributions consist primarily of MSA dues to the American Geological Institute.

c) Office Expenses for *The American Mineralogist* are for printing and mailing labels to Byrd Press, billing for reprints and page charges, and handling orders for back issues.

Report of the Financial Advisory Committee for 1975

During 1975 the market value of the Mineralogical Society of America investment portfolio increased 22.9 percent from \$261,249 to \$320,977 (Table 1), and thereby regained the loss suffered in 1974. The common stock portion of the portfolio was increased gradually during the year from 57.8 percent of the total on a cost basis at the start of the year to 77.3 percent at the end, and the market value of the common stocks increased from \$154,365 to \$235,686 during this period. Capital gains totalled \$54,189, primarily in MCA and in Moore McCormack Resources (Table 2). Dividends and interest amounted to \$25,204 (Table 3). The latter figure is larger than normal as a result of a \$6,000 special dividend received from Electronic Data Systems.

Mr. Sidney H. Stires, who served as MSA investment manager during 1973-75, has resigned in order to concentrate on the production of research reports. He has been replaced by Mr. William G. Campbell of New York City. This committee agrees with Mr. Campbell that it is in the best long term interests of the Society to take a more conservative approach to the market in the future so that our recent gains can be consolidated. We are concerned that the market valuation of Table 1, although representing the largest year-end total in MSA history, actually has declined considerably in the past six months and is now less than the cost value. We anticipate that Mr. Campbell will seek greater diversification than at present and will concentrate on the equities of companies that are well-established but

that still show the potential for continued growth and market leadership.

Respectfully submitted,

Report of the Editor for 1975

Of the papers received by the Editor between August 15 of the prior year to August 14 of the calendar year, those accepted usually constitute *The American Mineralogist* of that calendar year. So computed, 151 (66.8%) of 226 manuscripts received were accepted and printed in 1973, 155 (78.7%) of 197 in 1974, and 152 (72.4%) of 210 in 1975. For the three-year period this becomes 458 (72.4%) of 633.

To stay within the number of pages budgeted by Council for the 1975 volume of *The American Mineralogist*, 7 completed papers, although ready, were withheld from the November-December issue and will be sent to press for the January-February 1976 issue instead. Two other papers, also ready for press, await resolution of questions of nomenclature by the IMA Commission. This backlog of nine papers or approximately one-third of an issue proved temporary because the influx of papers, rapid during July, abated somewhat during August and September.

As I retire as Editor, I wish to reiterate my indebtedness to the Boards of Associate Editors for 1972, 1973, 1974, and 1975. These include Arden L. Albee, Werner H. Baur, Arthur Boettcher, Charles W. Burnham, James R. Craig, Wayne A. Dollase, Jen Ho Fang, J. Jeffrey Fawcett, Joseph J. Finney, Donald M. Henderson, William D. Johns, Robert E. Newnham, Charles T. Prewitt, Paul H. Ribbe, Peter Robinson, Hugo Steinfink, Priestley Toulmin III,

Rosemary J. Vidale, David R. Waldbaum, and William B. White. Their hard and dedicated work resulted in important improvements and corrections to the papers submitted. They have helped us to maintain a high standard of quality.

Mary Holliman has served with great distinction and efficiency as Managing Editor. Her tendency toward orderliness admirably offset my own toward entropy. I thank my secretary, Vera Good, for cheerfully suffering (but not in silence) the increased work load and responsibilities that my term as Editor brought her. I am grateful to Wen Huang, Andrea Ross, and Carl Francis, who, with Mary Holliman, are bringing the 1966-1975 decennial index and the 1975 annual index to completion. I am pleased to thank several Councils of the Society for their unflinching support and rest secure in their selection of so eminent a scientist as Brian Mason to succeed me as Editor. Several Publications Committees of the Society—chaired by George W. Fisher, William C. Kelly, Gene C. Ulmer, E-an Zen—have also given unflinching support.

The quality of *The American Mineralogist* also depends on the conscientiousness of those who review papers at the request of the Editor or Associate Editors; their names are listed below.
