**Cation ordering in Ni-Mg olivines** by G. Ottonello, A. Della Giusta, and G. M. Molin (v. 74, p. 411–421). Page 416: The equation for the effect of temperature on free energy in the left-hand column as published is incorrect. The following equation should therefore be substituted:

$$G_{T,P_r} = H_{T_r,P_r}^0 + \int_{T_r}^T C_p dT - T \left( S_{T_r,P_r}^0 + \int_{T_r}^T C_p dT/T \right).$$

**Renierite crystal structure refined from Rietveld analysis of powder neutron-diffraction data** by Lawrence R. Bernstein, Daniel G. Reichel, and Stefano Merlino (v. 74, p. 1177–1181). Page 1177: The fourth line in the second paragraph of the left-hand column should read as follows:
