

AM-95-566

Memorial of Richard Conrad Emmons, 1898-1993

S. W. Bailey

For deposit: Bibliography of Emmons

American Mineralogist, 80, 1-2, 194-196.

Complete Bibliography of R.C. Emmons

- Mississagi quartzite. Geol. Survey Canada Memoir 143, 32-38 (1925).
- (with A.N. Winchell) Some methods for determining refractive indices. Amer. Mineral., 11, 115-123 (1926).
- Concerning inclusions in igneous magma. Jour. Geol., 34, 422-428 (1926).
- (with C.H. Stockwell and R.H.B. Jones) Argentite and acanthite. Amer. Mineral., 11, 326-328 (1926).
- Wakomata Lake Map-Area, Algoma District, Ontario. Geol. Survey Canada Summary Report, Part C, 1-15 (1926).
- A diabase chert breccia. Jour. Geology, 36, 569-572 (1928).
- Notes on the precipitation of calcium carbonate. Jour. Geol. 36, 735-742 (1928).
- The double dispersion method of mineral determination. Amer. Mineral., 13, 504-518 (1928).
- Studies in mineral separation in a finely divided state. Amer. Jour. Sci., 16, 423-445 (1928).
- Another petrographic method. Science n.s., 70, (1929).
- The double variation method of refractive index determination. Amer. Mineral., 14, 414-426 (1929).
- A modified universal stage. Amer. Mineral., 14, 441-461 (1929).
- A set of 30 immersion media. Amer. Mineral., 14, 482 (1929).
- (with J.E. Thomson) Preliminary report on the Woman River and Ridout map-areas, Sudbury District, Ontario. Geol. Survey Canada Memoir 157, 30 pp. (1929).
- Identification of gems. Amer. Jr. Police Sci., 1, 542 (1930).
- Graphic methods for the improved universal stage. P. 234-239 in Chap. 20, A.N. Winchell, Elements of Optical Mineralogy, Part I (1931).
- Additional comments on the double variation apparatus. Amer. Mineral., 16, 552-555 (1931).
- High temperature furnace and micro adaptation. Science, 73, 499 (1931).
- Identification of minerals in powdered form. Ed. Focus (1933).
- Plagioclase determination by the modified universal stage. Amer. Mineral., 19, 237-259 (1934).
- (with E.F. Williams) High index refractometer. Jour. Sed. Petrol., 4, 32-35 (1934).
- (with R.E. Wilcox) A mineralogic study of silicosis. Amer. Mineral., 22, 256-267 (1937).

- (with C. Fries) Aluminum and silicosis. *Amer. Mineral.*, 23, 654-660 (1938).
- (with R.M. Gates) New method for the determination of feldspar twins. *Amer. Mineral.*, 24, 577-589 (1939).
- The contribution of differential pressures to magmatic differentiation. *Amer. Jour. Sci.*, 238, 1-21 (1940).
- (with R.M. Gates) Plagioclase twinning. *Bull. Geol. Sci. Amer.*, 54, 287-299 (1943).
- The Universal Stage. *Geol. Soc. Amer. Memoir*, 8, 205 pp. (1943, reprinted 1959).
- A mineralogist's obligation. *Amer. Mineral.*, 30, 87-96 (1945).
- The use of Becke line colors in refractive index determination. *Amer. Mineral.*, 33, 612-618 (1948).
- Selected Petrogenetic Relationships of Plagioclase. *Geol. Soc. Memoir*, 52, 142 pp. (1953).
- Plagioclase analyses. Chap. 2 in *Geol. Soc. Amer. Memoir* 52, 11-22 (1953).
- (with V. Mann) A twin-zone relationship in plagioclase feldspar. Chap. 4 in *Geol. Soc. Amer. Memoir* 52, 41-54 (1953).
- Petrogeny of the syenites and nepheline-syenites of central Wisconsin. Chap. 6 in *Geol. Soc. Amer. Memoir* 52, 71-89 (1953).
- (with C.D. Reynolds and D.F. Saunders) Genetic and radioactive features of selected lamprophyres. Chap. 7 in *Geol. Soc. Amer. Memoir* 52, 89-99 (1953).
- The argument. Chap. 9 in *Geol. Soc. Amer. Memoir* 52, 111-117 (1953).
- (with J. Bach) Steel penetration. *Foundry*, 83, 108-116 (1955).
- (with J.B. Jones and J.R. Bach) Steel penetration--some further observations. *Foundry*, 84-10, 150-151 (1956).
- Memorial of Alexander Newton Winchell [1874-1958]. *Amer. Mineral.*, 380-385 (1959).
- (with R.M. Crump and K.B. Ketner) High- and low-temperature plagioclase. *Bull. Geol. Soc. Amer.*, 71, 1417-1420 (1960).
- Granites by recrystallization. *Amer. Jour. Sci.*, 262, 561-591 (1964).
- A tectonic view of the moon: Part I. *Tectonophysics*, 1, 541-547 (1965).
- A tectonic view of the moon: Part II. Craters. *Tectonophysics*, 2, 83-89 (1965).
- Strike-slip rupture patterns in sand models. *Tectonophysics*, 7, 71-87 (1968).
