

## American Mineralogist thanks the year 2015 reviewers

*American Mineralogist* greatly values the time and effort of its 2015 reviewers. The Journal thrives due to the commitment of many people. It could not exist without the support of these crucial volunteers.

# American Mineralogist is now available online three ways

▼ **1 Via MSA** – The classic PDF presentation in a simple no-frills environment.

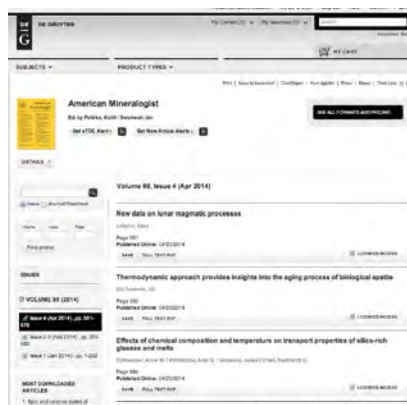

To view: <http://www.minsocam.org/msa/ammin/toc/>. Institutional Subscription information: <http://www.minsocam.org/msa/AmMin/subscription.html>

► **2 Via Geoscienceworld** – Since 2004, a comprehensive Internet resource for research across the geosciences, built on a database of peer-reviewed journals and integrated with GeoRef, enhanced with specialized tools developed in partnership with Google Maps™. This gives global researchers a single point of access to 45 full-text scholarly journals and links to millions of relevant resources hosted elsewhere on the Web. <http://ammin.geoscienceworld.org/>. Many features, html and PDF views. To subscribe: <http://www.geoscienceworld.org/site/subscriptions/>

## Our Aims and Scope

*American Mineralogist*: Journal of Earth and Planetary Materials, is the flagship journal of the Mineralogical Society of America (MSA), continuously published since 1916. Our mission is to provide readers with reports on original scientific research, both fundamental and applied, with far reaching implications and far ranging appeal. Topics of interest cover all aspects of planetary evolution, and biological and atmospheric processes mediated by solid-state phenomena. These include, but are not limited to, mineralogy and crystallography, high- and low-temperature geochemistry, petrology, geofluids, bio-geochemistry, bio-mineralogy, synthetic materials of relevance to the Earth and planetary sciences, and breakthroughs in analytical methods of any of the aforementioned.
